POWERRAIL

CREATIVE INNOVATIONS ... CONTINUING TRADITION

To Our Present and Future Customers:

PowerRail Distribution, Inc. is excited to introduce to you our new and improved 2016 catalog. On behalf of our entire team, I'm sincerely grateful for the ability to produce for our customers another comprehensive catalog featuring PowerRail products, enhancements and capabilities.

We are proud of the growth our family of companies has had since we started this endeavor in 2003. We are continuously expanding PowerRail with new locations every year bringing products and jobs back to the USA. We are always dedicated to achieving our goal of providing the Rail, Power Generation, Transit, and Marine Industry with an alternate source for true AAR M-1003 Quality Parts, Components, and Systems at competitive prices and delivered in a timely manner.

We are pleased to extend our offering of "Enhancement Products" developed with the Solidworks System coupled with our M-1003 Quality System. This symbolizes our attention to customer's needs in providing better solutions to current applications and cost savings, while keeping quality at the forefront.

In addition, we are also proud to expand our innovative "True Blue™" series of re-manufactured parts and components with our "New-UX™" program which gives customers the opportunity to upgrade old cores for new product. Our programs offer true value and quality with unsurpassed flexibility and cost effectiveness.

In an effort to better meet the needs of our customers, we continue to develop our website offering enhanced features and more information about our company, products and the services we offer.

Please feel free to visit the site at WWW.ePowerRail.Com™

Thank you for the opportunity to serve your needs. Should you have any questions regarding our new catalog or our product line, please feel free to call me or any other member of the PowerRail team.

Sincerely,
Paul P. Foster
President & CEO

Dedication at EVERY Turn

CORPORATE

PowerRail Distribution, Inc. was originally formed 2003 in Wilkes-Barre, PA. Today, our Corporate Offices and Main Distribution Center is centered on a 7 Acre + site in Duryea, PA. (a suburb of Scranton) with strategic access to all levels of logistic transportation.

Dedication at EVERY Turn

DISTRIBUTION

Centralized Warehousing

Hand Picked and Double Checked for Accuracy

COOPER BEARINGS

Cooper Bearings Inc. Georgetown, Del. has recently moved into their new State-of-the-Art Facility. Cooper Bearings is the leading Expert for Innovation and Quality of Bearings and Journal Boxes used in both Freight and Passenger Transit Locomotives and Cars. In addition we are an M-1003 Certified Company offering New GG Journal Boxes and our **"True Blue Series™"** Unit Exchange Hyatt Journal Boxes. We also offer a complete line of Conversion and Specialty Journal Box and other related Wheel and Axle parts and components.

Precision Technology

Quality Workmanship

Dual Table CNC Milling Center

POWERRAIL ELECTRONICS

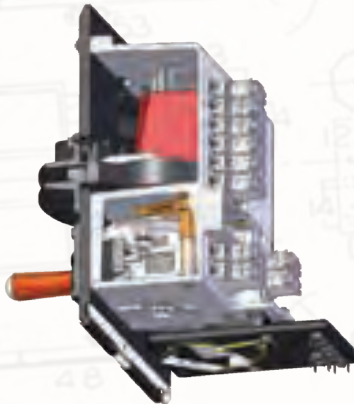

PowerRail Electronics Technology, Rincon, Ga. has recently renovated their facility for the third time and built offices to support the Quality, Engineering and Office Team.

PowerRail Electronics offers a full line of New and **"True Blue Series™"** Unit Exchange Contactors, Relays, Control Stands, Cabinets, Engine Protectors and other related parts & components. We pride ourselves in utilizing parts and components that we developed to meet or exceed original OEM specifications. Our standards ensure the end user receives a quality part that will be both reliable and functional.

POWERRAIL LOCOMOTIVE SERVICES

PLS

PowerRail Locomotive Services Monroe Ga. Opened in 2014. This 17+ Acre Locomotive Facility offers both Locomotive and Freight Car service including Light Repair, Running Repair, Re-wires, Traction Motor, Truck Work, Engine and/or Engine Component Change Out. We have also branched out with PowerRail Mobile Services which will provide the End Customer Mobile Services on site.

PowerRail Mobile Maintenance

POWERRAIL

CREATIVE INNOVATIONS ... CONTINUING TRADITION

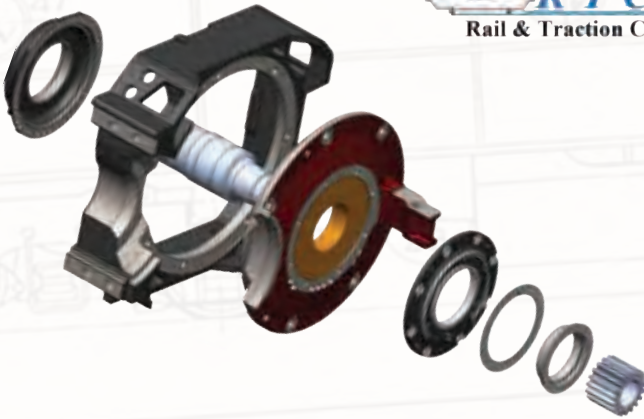

RAIL & TRACTION

Rail & Traction, ST. Thomas, Ontario, Canada are the leading Expert for Innovation and Quality of Traction Motor and other related Electrical Locomotive Rotating Parts and Components.

Rail & Traction's Quality and Products are well established not only in North America but also Internationally.

POWERRAIL DISTRIBUTION ENGINEERING

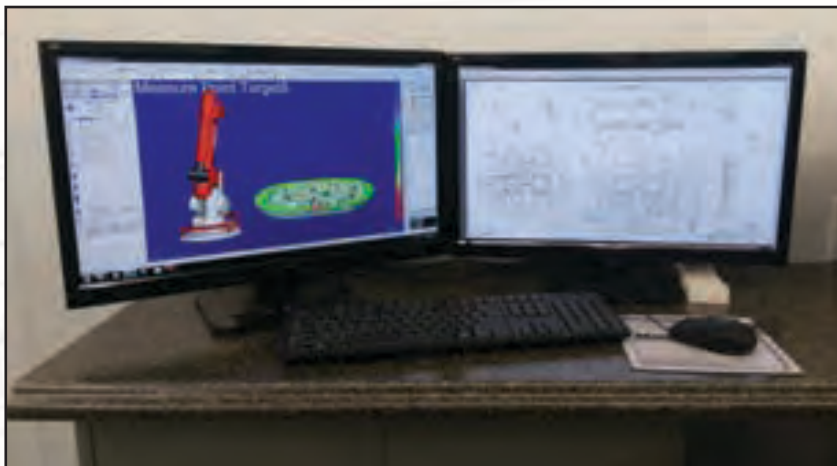

PowerRail Distribution Certified AAR M-1003 Quality

The **AAR M-1003 Certification** is a highly regarded mark of Quality in the Industry. It demonstrates that PowerRail Distribution Inc. and its divisions have implemented strict **Quality Procedures**. These procedures lead to quality parts and components being produced and delivered in a timely manner.

Besides using SolidWorks® software to create TRUE 3-D Solid Models, Drawings and Renderings, we have implemented Ultra-Accurate CMM Inspections in our NEW Clean Room.

By coupling these two technologies together, we are able to assure the end user, a quality part that will be reliable and functional

Environmentally Controlled Clean Room

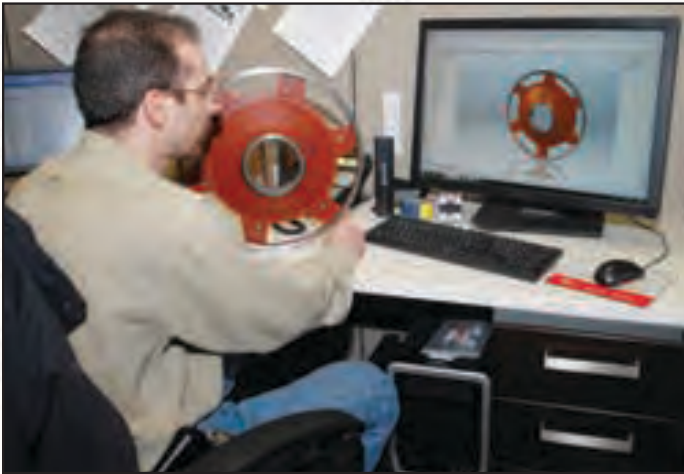

CMM Measuring for Accuracy

POWERRAIL DISTRIBUTION ENGINEERING

"Uniting, Innovation, Engineering, Manufacturing and Distribution"

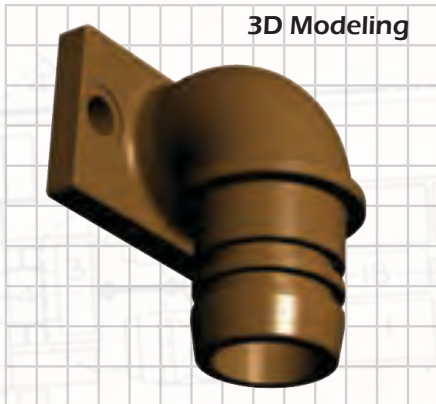

Senior Engineer Creating a Rendering in SolidWorks®

Our Enhanced M-1003 Quality System is coupled to our Advanced Engineering Resources and Support. Which Utilize SolidWorks® CAD Software to Create and Analyze Solid Models, Drawings and TRUE 3-D Renderings.

This CMM MASTER3D Gauge is an Ultra-Accurate 6 axis Arm used for precise, Measuring, Reverse Engineering, Building, and Analysis.

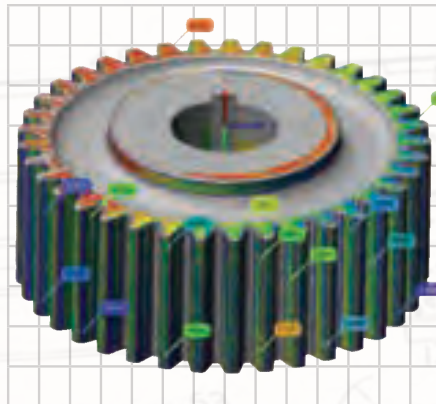

- **Certification: ASME B89.4.22**
- **Probing volumetric accuracy: +/-0.025mm (.00098in)**
- **Probing point repeatability: 0.014mm (.00055in)**

By coupling these two technologies together, we are able to assure the end user, a quality part that will be reliable and functional.

PowerLok Oil & Grease Filled GearCases PowerLok Combination Oil/Grease Filled GearCases

Tab and Slot Design

- 100% Slot Alignment For Better Fit and Operation
- Strengthens the Seams for **Heavy Impact Resistance**
- More Welding Points **Improved Integrity and Strength**
- CNC Robotic Welder Provides Stronger Welds vs. That of Contemporary Welds
- CNC Robotic Welder Provides Less Heat Which Lowers Fatigue Typically Found on Contemporary Welds
- ***Patent Design** - Mechanical and Electro Mechanical

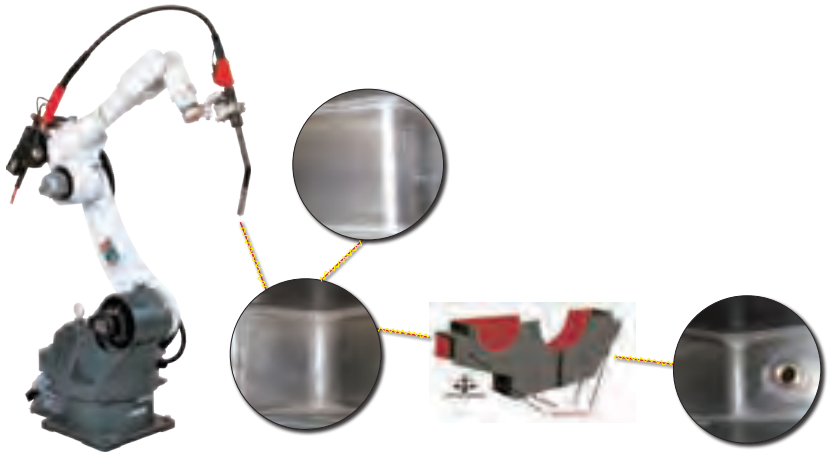

Dual Cap Purpose

- Cap Drilled and Pinned to Prevent Improper Use

Enhanced Strength Patented Design Drastically Reduces Derailment Damage

Benefits

- Full Line of **PowerLok Oil & Grease GearCases**
- Less Inventory - Offering Both Designs
- **New Combination Oil & Grease GearCases**
AND
Original Design Oil Or Grease GearCases
- Reduction in Hazard Material Spills
- Reduction in Down Time Due to Small Derailments
- Increased Reliability and Service Life
 - **Our New CNC Robotic Welder provides stronger welds vs. that of contemporary welds**
 - **Our New CNC Robotic Welder provides less heat which lowers fatigue typically found on contemporary welds**

We Also Offer Original Design Grease or Oil GearCases - PLOCK Series - Call Our Team for Pricing and Availability!

**Proven Aviation Technology*

**Keeps Debris in the Housing*

Product Description

PowerRail Distribution Incorporated is pleased to offer the New “FRA Safety Halogen” Shatter Resistant Teflon Clear Coat Halogen PAR56. Our Third Generation safety bulb offers a “Teflon Clear Coat” layer of protection should the bulb break. When bulb breakage occurs, virtually all of the debris will remain inside the protective coating. These bulbs provide the ultimate protection in the event of impact, accidental dropping or thermal shock. It is designed for high temperature use (up to 500° F - 260° C). This technology offers reliability, longevity, reduced maintenance costs and is widely used in the Aviation Industry for its resistance to extreme climatic and vibration conditions which result in short life expectancy and frequent lamp change-outs.

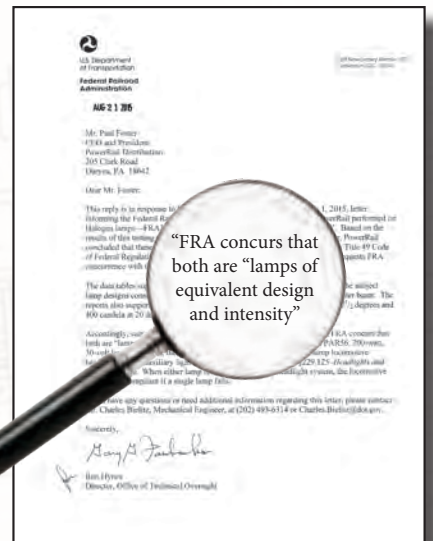

In coupling Safety Protection with Long Life 200,000 Candela Output Performance, the bulb meets all FRA requirements and offers the Railroad Industry the latest technology in Halogen design and reliability.

Advantages:

- **Rated life up to 4,000 hours vs. 500 hours for incandescent bulb.***
- **200,000 Candela 350 Watt output Ditchlight (50 watt energy savings).**
- **200,000 Candela 200 Watt output Headlight**
- **Teflon coated glass to protect against shatter injury**
- **Superior filament design and support for superior reliability**

- 50A19 • 8094886
- 8080404 • 41A210382P2

PowerRail Distribution Company is pleased to offer the New "SMART LED" LED Bulb which Meets **New AAR Spec S-5515**.

This 6 Watt LED utilizes the Latest in **CREE LED** Technology that truly gives a total 270 to 320 Degree Beam Spread vs. Typical 180 Spread and 545 Lumens High Clean Output Brightness.

Besides offering a true cost savings LED, this bulb replaces (2) Two SKU's typically used in the rail industry.

LED Advantages:

- Rated Life 50,000 Hours vs. 1,000 of Standard Bulb. (50 to 1 Life)
- Reduced Generator Voltage Draw provides Fuel Savings
- No EMI Interference
- Reverse Polarity Protected
- Operates on Voltage Range of 50 Vdc to 80Vdc
- No Filaments or Glass to Break (Enhanced Protective Globe).
- Reduced Labor and Maintenance Labor Costs.
- Eliminates FRA Infringements Associate With Standard Bulbs.
- Bulb does NOT operate on AC Voltage
- TOTALLY SEALED with Heat Sink.

POWERRAIL ENHANCEMENTS

PowerRail Distribution Inc. is pleased to offer our New Generation premium gasket material to stop **ALL leaks in all Locomotive and Marine applications.**

C-Swell YellowSeal™ gasket material is an OEM approved material which was precision enhanced to offer a Controlled Swell. This controlled swell expands when it comes in contact with the media it is sealing. The controlled swell allows the gasket material to fill voids and imperfections on component flanges and sealing surfaces, and literally will stop leaks, even in the most demanding applications.

C-Swell YellowSeal™ is a highly compressed, solvent free, Hydro-Fused industrial OEM gasket material manufactured exclusively for the Rail and Marine industries. Documented ASTM testing has confirmed that **C-Swell YellowSeal™** material offers excellent bolt torque retention, crush resistance, and resist extrusion over a longer period of time than existing competing gasket materials. Additionally, **C-Swell** offers the end user a material that has a long shelf life.

C-Swell YellowSeal™ gaskets will stop leaks, reduce maintenance cost and most of all; lead us to cleaner and safer locomotives for us and our environment.

ASTM F-1574 Compressive Strength
1 Minute Dwell Time @ 150° C

Identification	Control	48.1 MPa 10,800 psi	66.2 MPa 12,500 psi	104.4 MPa 15,000 psi	120.1 MPa 17,500 psi	137.9 MPa 20,000 psi
Master Packing (3017-05.8 inch)						
Crush Resistance		11%	17%	28%	36%	48%
Area Increase @ Compressive 10" (3017-05.8 inch)						
Area Increase %		18%	31%	45%	67%	87%

ASTM F-1574, is used to determine the compressive strength characteristics or crush-extrusion resistance of various gasket materials at an elevated temperature. All specimens shown below have been tested 300°F.

ASTM F-1574 Standard states in Significance and Use 4.1 "The compressive strength or crush-extrusion resistance of a gasket material is a major factor with regard to the selection of a given material for use in a

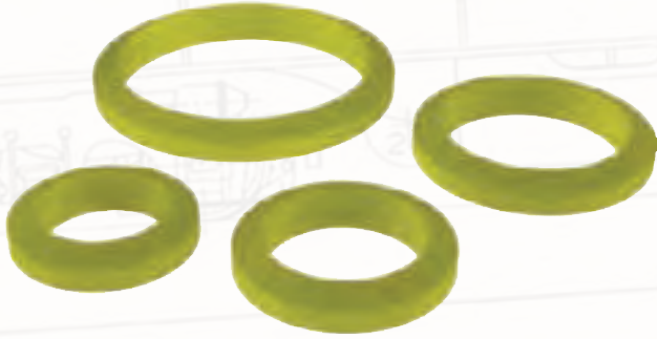

particular sealing application. The significance of the test method is based, in part, on the assumption that material, once it has been crushed or extruded, will no longer function as effectively as a seal. Two or more materials can be compared to determine differences in their resistance to compressive stress."

POWERRAIL ENHANCEMENTS

Security Fastener System

Systems Available for K5LA or K3LA Air Horns

PowerRail has developed a special Security Fastener System that has multiple uses on a locomotive.

The system is used when extra secure fastening is required. These special fasteners have an anti-vibration effect for extra secure fastening.

An example of a typical application is for airchimes to prevent costly theft.

Our system replaces existing nuts and bolts. A special proprietary key, which is made exclusively for the railroad, secures the nuts and bolts in place

K3 Air Horn Kit PRD16184836 - K5 Air Horn Kit PRD16184480

<p>A smooth head prevents wrenches from removing. Additionally, the head is oversized to spread its compressive load</p>	<p>The bottom of the head is serrated to latch onto a surface with incredible strength</p>	<p>Example of how well the fastener latches to the surface of the locomotive</p>	<p>The internal drive nut is cone shaped to resist vice grips and a compression ring fastens and assures security</p>

PowerRail Bio-Degradable Chemical Line

PowerRail Distribution Inc. is dedicated to provide alternate solutions to the Rail Road industry at competitive pricing.

The newest addition to our family is “Seacole C&H Chemical Line” which offers a Full Line of Locomotive “SOLVENT FREE” Eco-Friendly Engine Products, Degreasers and Cleaners.

We are proactive in providing chemistries that eliminate hazardous waste and the subsequent environmental effect.

299 - WATER LEAK

Concentrated vivid tracing dye for use in detecting water leaks in water cooled engines. Provides a vivid visual marker to trace and see the location of water leaks in normal lighting. Visibility is enhanced using a black light.

571

Highly concentrated liquid inorganic rust inhibitor engineered for all iron, steel, yellow and soft metal parts when additional corrosion, oxidation or rust protection is needed.

Specifically designed to provide in-process rust protection of parts and for short-term part storage.

Provides superior rust protection in wash and final rinse sections of all aqueous industrial parts washers from heated high-pressure spray cabinet & conveyORIZED systems to free standing manual and immersion type tanks.

Compatible with most alkaline cleaning compounds when simultaneously used.

Harmless to engines and equipment.

577

A highly concentrated liquid inorganic rust inhibitor engineered for indoor storage for all iron and steel metal parts when additional corrosion, oxidation or rust protection is needed.

Specifically designed to provide in-process rust protection of parts and for short-term part storage.

Provides superior rust protection in wash and final rinse sections of all aqueous industrial parts washers from heated high-pressure spray cabinet & conveyORIZED systems to free standing manual and immersion type tanks.

Compatible with most alkaline compounds when simultaneously used.

Harmless to engines and equipment.

573

A pigmented solvent based rust proofing compound designed for long-term outdoor storage of metal parts.

Easily applied and removed and provides a transparent film with up to a year of outdoor rust protection.

Dries quickly to a semi-transparent blue coating/film allowing for easy reading of identification marks.

Easily applied by brush, dip, or spray.

BREAK

Ready-to-use, multipurpose, heavy-duty liquid detergent for cleaning all hard surfaces.

Specifically formulated to clean oily residues and sooty grime found in factories, bathrooms, vehicles and offices.

Virtually safe on all hard surfaces including: machinery, painted surfaces, wallpaper, counters, desks, and industrial fixtures.

Contains no phosphates, is non-flammable, and is biodegradable and environmentally friendly.

TOTAL

A heavy duty, aluminum safe, high pH, multipurpose degreaser and detergent capable of cleaning and degreasing everything from hard-surface concrete shop floors & walls, to industrial equipment, to company vehicles.

Safe to use anywhere water is tolerable!!!

TOTAL B

A super duty, aluminum safe, high pH, alkaline degreaser and detergent engineered to attack the toughest grease, grime, soil or any other unwanted contaminants associated with facility maintenance cleaning.

Seacole C&H's most powerful multipurpose degreaser and cleaner that is aluminum safe and biodegradable.

Safe to use anywhere water is tolerable!

ACTION CLEANER

Premium quality, heavy-duty, biodegradable liquid detergent with butyl for industrial use in cleaning all hard surfaces.

Extremely powerful in cutting grease and oil eliminating the need to scrub or brush and highly effective in both hot and cold water.

AQUA SOLV II

Aluminum safe, pH neutral, liquid detergent engineered to be specifically used in manual type fountain style aqueous parts washers or “Sink on a Drum” type units to produce superior cleaning results for the removal of the toughest contaminates.

Environmentally green by eliminating the need for harsh cleaning solvents. Biodegradable & environmentally safe.

Contains specialty surfactants for excellent carbon, grease, and grime removal. Non-VOC by CARB definition per ASTM D1298.

SPRAYDETRS

A highly alkaline powdered detergent engineered to produce superior cleaning results for the removal of the toughest contaminates on all FERROUS metal surfaces.

A powerful rust stripper that provides a one-step cleaning process that eliminates acid pickling, neutralizing, and rinsing steps.

BioGuard Plus 6™

Biocide and Multifunctional Diesel Fuel Additive

DESCRIPTION, FEATURES & BENEFITS

The only EPA registered fuel microbiocide containing a multifunctional premium diesel additive. Contains **BioGuard™** microbiocide to prevent microbial contamination and fuel filter plugging. Formulated with **Diesel Guard™** to help prevent ultra low sulfur diesel and biodiesel related problems and significantly improve heavy-duty diesel engine performance. Helps reduce fuel consumption, smoke, soot, odor and harmful exhaust emissions.

Contains less than 15ppm of sulfur to comply with ultra low sulfur diesel regulations.

Product performance has been documented in ASTM, SAE and engine manufacturer tests.

Continuous Use Helps To...

- Prevent bacteria and other microbiological growth
- Stabilize fuel to keep it fresh for up to 2 years or more
- Improve thermal stability beyond industry standards
- Control moisture to prevent sludge
- Lubricate fuel injectors & pumps to prevent premature wear
- Prevent fuel filter plugging and extend fuel filter life
- Prevent rust & corrosion
- Increase cetane number
- Dosage 1 Gallon per 1500 Gallons Diesel
- Clean up and prevent fuel injector deposits
- Exceed Cummins L-10 “Superior” injector deposit cleanliness rating
- Reduce piston and combustion chamber deposits
- Increase power and performance*
- Reduce smoke, odor, transom soot *
- Reduce harmful exhaust emissions*
- Contains no alcohol
- Eliminate the need for other fuel additives
- Reduce fuel consumption up to 7.6%*

SEASONAL PRODUCTS

688S - PORTABLE TOILET SUMMER

A concentrated liquid odor control agent for use in chemical toilets in airplane, locomotive, RV, bus and portable toilet applications.

A liquid formulation that mixes readily with water, glycol or salt solutions.

No messy powder to handle or clean up.

Contains no hazardous or toxic ingredients.
NO FORMALDEHYDE.

688W - PORTABLE TOILET WINTER

A concentrated liquid odor control agent for use in chemical toilets in airplane, Locomotive, RV, bus and portable toilet applications.

A liquid formulation that mixes readily with water, glycol or salt solutions.

No messy powder to handle or clean up.

Contains no hazardous or toxic ingredients.
NO FORMALDEHYDE.

Provides protection from freezing down to -40°F

ELECTRIC SEMI-CONDUCTOR TESTER

PowerRail DST5000 Tester

- Test SCR's/Thristors
- Test Silicon Diodes
- Test Transistors/IGBT's
- Test Rectifiers
- Test IGTS's

Three Very Important Tests:

- Adjustable from zero to 5000 Volt for testing Forward Blocking. A digital Ammeter indicates leakage current at semiconductor voltage rating.
- Adjustable from zero to 5000 Volt for testing Reverse Blocking. A digital Ammeter indicates leakage current at semiconductor voltage rating.
- Adjustable voltage for Gating or Firing devices. A digital DC Voltmeter indicates actual gate trigger voltage (Vgt). A digital DC Ammeter indicates actual gate current (Igt).

Hartford, IL (St. Louis)

Our Product Line offers a complete line of Remanufactured Engines and Engine Components for the Rail Industry.

We Offer a wide range of 567 - 645 - 710 and 7FDL Type Engines that can support most programs. Services include Unit Exchanged, Remanufactured Outright and Repair/Return.

All Engines are mounted on a Dynamometer to ensure the end user will be able to get a **"TRUE BLUE™"** Turn-Key Engine.

Our shop is **Certified AAR M-1003** and the Quality and Experience of our staff has earned approvals by most Class 1, Class II and Class III and International Railroads.

We also offer FULL Service & Field Support that can also offer rebuilding Engines in the Field including Line Boring

All Engines are Dyno Tested in our Newly Upgrade 5,000 HP EFI Capable Dynamometer to ensure Quality and Reliability

QUALITY & RELIABILITY IS JOB #1

Experience is the key

ENGINE - GASKET, SEALS AND RUBBER PRODUCTS

Complete Line of New Generation Gaskets, Seals and O-Rings

We are pleased to introduce our NEW C-Swell™ YellowSeal™

Additionally, our rubber products have been enhanced to our NEW VPS Viton® Power Seal material

Marman Seals

***VPS Power Seals *Extended Life *Resistance to Oil & Fuels**

WILL NOT LEAK!

PowerRail P/N

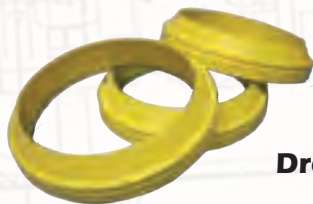

Description

- E8479542 Marman 1/2 Inch
- E8479543 Marman 3/4 Inch
- E8479544 Marman 1 Inch
- E8479598 Marman 1 1/4 In
- E8479599 Marman 1 1/2 In
- E8479600 Marman 2 Inch
- E8479601 Marman 2 1/2 In
- E8479602 Marman 3 Inch
- E8479603 Marman 3 1/2 In
- E8479604 Marman 4 Inch
- E8406231 Marman 6 Inch

PowerRail offers a full line of Marman Couplings and upgraded VPS Viton Power (High Temperature) Seals.

Pipe is measured by its I.D. because a marman seal sits on the outside of the pipe, the I.D. of the seal will be larger than the pipe size.

Dresser Seals

PowerRail Flexi-Filter Generic Kits

PowerRail Distribution Inc Offers a True Cost Savings by offering Customs Kits dedicated to the Railroad’s Road Units.

PowerRail Kits will be Custom Assembled and Tagged by the Customers Road Unit Number which makes ease for ordering.

In addition to the Filters we also can add other items such as Light Bulbs, Carbon Brushes, Wiper Blades and Fuses (to mention a few).

Filter Kit PRDX7005

GP40 FILTER CHANGE OUT KIT		
Qty	OEM Ref. #	Application
8	8345482	C-12/C-24 Lube Filter
1	8275432	S-2 Primary Fuel Filter
2	8423132	FJ-2S Secondary Fuel Filter Spin-on
1	8322064	TL-2C Turbo -Paper Cartridge

8280185	Switch Main Battery Knife Style

**GAGES - AIR FLOW INDICATORS
FUEL AND AMMETERS**

Complete Line of Air Flow Indicators,
Fuel Gauges, & Ammeters

OEM Ref. #	Description
10601196	Air Flow Indicator
40017162	Air Flow Indicator
8195741	Air Flow Indicator
8387634	Air Flow Indicator, 60-160 lbs.
84B104054P1	Air Flow Indicator
10590743	Ammeter Load Indicator SD60
40150894	Ammeter, Control Stand, SD40-E
8214188	Ammeter TM 0-1500 AMPS
8380058	Ammeter Traction Motor 0-1500AMP
8438032	Ammeter Load Gauge 0-1500AMP
8402426	Ammeter Traction Motor Load
9573315	Ammeter Load Indicator
10599378	Complex Gauge Assembly with AFM Indicator 4 1/2"
8315266	Compressor Gauge, Float Type

GAUGES

Complete Line of Dry and Liquid Filled Gauges

OEM Ref. #	Description
40031338	2 1/2" 0-100 PSI Dry Gauge Oil
8340547	2 1/2" 0-200 PSI Dry Gauge Air
40018397	3 1/2" 0-160 PSI Dry Gauge Oil
40018396	3 1/2" 0-200 PSI Dry Gauge Air
8015552	3 1/2" 0-160 PSI Dry Gauge Air
8032122	3 1/2" 0-100 PSI Dry Gauge Fuel Oil
8032123	3 1/2" 0-100 PSI Dry Gauge Oil
8037304	3 1/2" 0-160 PSI Dry Duplex Gauge Air
8047964	3 1/2" 0-200 PSI Dry Duplex Gauge Air
8231593	3 1/2" 0-200 PSI Dry Gauge Oil
8231594	3 1/2" 0-160 PSI Dry Gauge Oil
8380610	3 1/2" 0-200 PSI Dry Duplex Gauge Air
8387352	3 1/2" 0-160 PSI Dry Duplex Gauge Air
41A304641ABP1	4" 0-200 PSI Liquid Gauge Oil
41B536099P3	4" 0-100 PSI Liquid Gauge Fuel
8459294	4 1/2" 0-160 PSI Duplex Dry Gauge Air
8481962	4 1/2" 0-160 PSI Dry Duplex Gauge
8484326	3 - 4 1/2" 0-160 PSI Duplex Dry Gauge
9080722	2 - 4 1/2" 0-160 PSI Dry Duplex Gauge
9329370	4 1/2" 0-160 PSI Dry Duplex Gauge
9540228	4 1/2" 0-160 PSI Duplex Dry Gauge Air

GEAR CASES

Complete Line of Grease & Oil GearCases

Patent Pending

PowerLok Oil & Grease Filled GearCases PowerLok Combination Oil / Grease Filled GearCases

Tab and Slot Design

- 100% Slot Alignment For Better Fit and Operation
- Strengthens the Seams for **Heavy Impact Resistance**
- More Welding Points **Improved Integrity and Strength**
- CNC Robotic Welder Provides Stronger Welds vs. That of Contemporary Welds
- CNC Robotic Welder Provides Less Heat Which Lowers Fatigue Typically Found on Contemporary Welds
- ***Patent Design** - Mechanical and Electro Mechanical

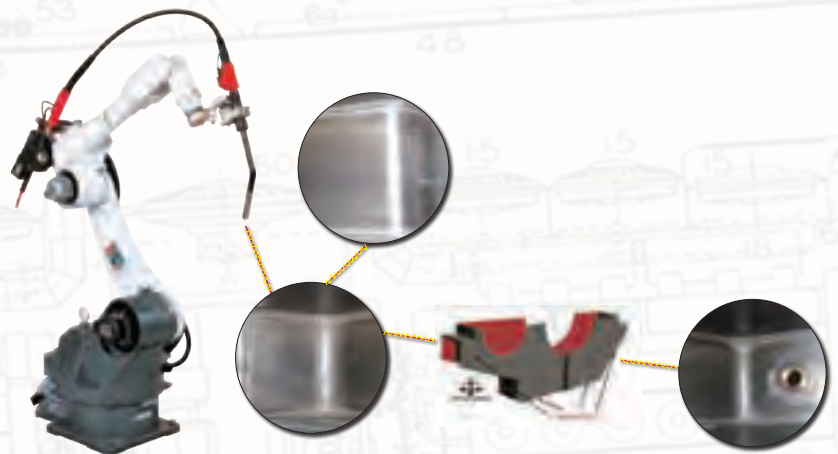

Dual Cap Purpose

- Cap Drilled and Pinned to Prevent Improper Use

Benefits

- Full Line of **PowerLok Oil & Grease GearCases**
- Less Inventory - Offering Both Designs
- **New Combination Oil & Grease GearCases**
AND
Original Design Oil Or Grease GearCases
- Reduction in Hazard Material Spills
- Reduction in Down Time Due to Small Derailments
- Increased Reliability and Service Life
- **Our New CNC Robotic Welder provides stronger welds vs. that of contemporary welds**
- **Our New CNC Robotic Welder provides less heat which lowers fatigue typically found on contemporary welds**

***Enhanced Strength Design
Drastically Reduces Derailment***

Also Offering **Original Design Grease & Oil GearCases - PLOCK**

ECOTIP “Green Tag” Injectors

OEM Ref #	ECOTIP Ref #	Comment
5229295/8478049	40083527/40078996	567 A,B,BC,C,E Fuel Efficient Tip
5229200/8478045	40083524/40078993	645E Roots Fuel Efficient Tip With Calibration Slide
5229250/8478046	40083525/40078994	111 Fuel Injector 12,16, 20 Cylinder Low Smoke
5229335/8478055	40083533/40079002	111 Fuel Injector Fits 645E3B

Green Tag Injectors Offer Very Precise Beginning and Ending Of Fuel Injection. This Results In Fuel Savings At Full Load and On Medium Duty Cycle. Reliability and Durability Is Also Increased Due To Lower Peak Cylinder Combustion.

E8431626 Holding Rack For Injectors

“Black Tag” Extended Idle “Switcher” Injectors

Black Tag P/N	Engine Application	Body Style
4991632	567B, BC, C	No-line
4991635	567C	1 Narrow groove
4991629	645E, 567C	1 Narrow groove

Black Tag Injectors Are Designed To Overcome Specific Challenges Under Various Applications. The Benefits Include Reduced Emissions, NOx and Smoke With Minimal To No Fuel Penalty In Certain Applications. The Injectors Also Help To Reduce “Souping” During Extended Idle Situations.

- Easier to use
- Rotary switch dial
- Unique dual case design
- Intuitive operation
- Ramp test
- 3mA output power
- Accuracy where it matters most
- Super fast battery charge

*This is just a sample of the tools we offer.
Please visit www.ePowerRail.com or call us today for many more.

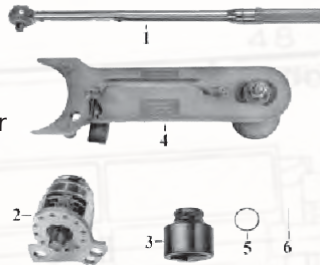

T50031

The T50031 kit was designed to make the job of torquing crab nuts easier while providing accurate torque results. It is comparable to our E8408219

T57870-115V

The T57870-115V offer excellent and uniform torquing of EMD Style power assembly crab nuts. It comes with a 1 1/8" hydraulic powered electric driven power unit rated at 9,000 PSI. It also comes with a 25 feet hose assembly, two wheel cart, and two socket torque. The wrench head is adjustable from 500 to 3,500 lb. ft. of torque.

T54101

Crab Nut Tool

The T54101 is the manual kit for torquing EMD Style crab nuts.

E9566058	Traction Motor Cable	Cable Assembly "F" - 7' 5/8" Long
E9566662	Traction Motor Cable	Cable Assembly "F" - 7' 5/8" Long
E40017963	Traction Motor Cable	Cable Assembly "FF" 76" Long
E8141064	Traction Motor Cable	Lead Assembly "FF" 6' 3" Long
E9566059	Traction Motor Cable	Cable Assembly "FF" - 6' 7 3/16" Long
E9566663	Traction Motor Cable	Cable Assembly "FF" - 6' 7 3/16" Long

New Flexible 3Kv Traction Motor Kit and Cables

- Easy to Install
- Very Flexible
- Longer Life & Reliable
- Lower cost in Long Run
- 3KV 200 Celsius vs. 2Kv 125 Celsius
- Class 1 approved

**“Uniting Innovation, Engineering,
Manufacturing and Distribution”**

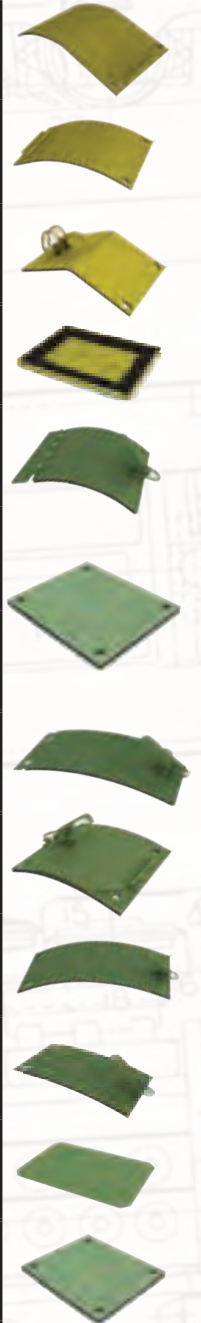

TRACTION MOTOR COVERS

Complete Line of Traction Motor Covers **MODIFIED** with **High Heat** Rubber Gaskets.

Accessory drive gear oil slinger	33	24
Coupling disc-to-crankshaft		
8, 12, & 16 cyl.....	2440	1800

20 cyl	1830	1350
Coupling disc rim bolts.....	400	295
Handhole cover bolts	27-41	20-30
Engine mounting bolts.....	617	455
Engine mounting bolts w/sleeves.....	881	650

*Lubricate with Texaco Threadtex No. 2303

**Lubricate with Fel-Pro C5A or equivalent

**MODEL 645 (BLOWER) ENGINE-SYSTEM
TEMPERATURES AND PRESSURES**

Lubrication Oil System

Pressure At Normal Operating Temperature	
At Governor Connection (Nominal)	40 - 70 psi
Temperature	
T1, To Engine (from cooler).....	175°-200°F
T2, From Engine (to cooler)	195°-200°F
T, Temperature Differential	20°-25°F
Alarm Settings	
ELOS, Engine Lube Oil Switch	
Rated Speed	17 - 21 psi
Idle Speed	5 - 9 psi
ELOT, Engine Lube High Temperature Switch (into engine)	220°F

Fresh Water System

Pressure Rise Across Fresh Water Pump At 900 RPM (minimum 0 psi at pump inlet)	
8 Cylinder.....	45 ± 3 psi
12 Cylinder.....	53 ± 3 psi
16 Cylinder.....	45 ± 3 psi
Temperature	
T1, To Engine	165°-180°F
T2, From Engine	175°-190°F
T, Temperature Differential	8°-15°F
T3, From Fresh Water Cooler	
To Lube Oil Cooler	150°-165°F
Alarm Setting	
EWT, Engine Water Temperature (from engine)	200°F

Raw Water System

Pressure Rise Across Raw Water Pump At 900 RPM (maximum suction-2 psi at pump inlet)	
With Gear Cooler	
8 Cylinder.....	41 ± 2 psi
12 Cylinder.....	43 ± 2 psi
16 Cylinder.....	43 ± 2 psi
Without Gear Cooler	
8 Cylinder.....	46.5 ± 2 psi
12 Cylinder.....	47 ± 2 psi
16 Cylinder.....	47 ± 2 psi

Design Temperature

T1, To Fresh Water Cooler (maximum)	85°F
T2-T1, Raw Water Temperature Rise Across Fresh Water Cooler	
8 Cylinder	41 ± 2 psi
12 Cylinder	43 ± 2 psi
16 Cylinder	43 ± 2 psi

Fuel System

Pressure	
G1, at Filter Outlet (to engine)	12 - 25 psi

**MODEL 645 (TURBO) ENGINE-SYSTEM
TEMPERATURES AND PRESSURES**

Lubrication Oil System

Pressure At Normal Operating Temperature	
At Governor Connection (Nominal)	60 - 100 psi
Temperature	
T1, To Engine (from cooler)	175°-195°F
T2, From Engine (to cooler)	195°-220°F
T, Temperature Differential	20°-25°F
Alarm Settings	
ELoS, Engine Lube Oil Switch	
Rated Speed	26 - 30 psi
Idle Speed	10 - 14 psi
LO2, Soak Back Pump Low Oil Pressure (rising pressure)	10 psi
ELOT, Engine Lube High Temperature Switch (into engine)	220°F

Fresh Water System

Pressure Rise Across Fresh Water Pump At 900 RPM (minimum 0 psi at pump inlet)	
8 Cylinder	47 ± 3 psi
12 Cylinder	48 ± 3 psi
16 Cylinder	55 ± 3 psi
20 Cylinder	55 ± 3 psi
Temperature	
T1, To Engine	165°-180°F
T2, From Engine	175°-190°F
T, Temperature Differential	8°-15°F
T3, From Fresh Water Cooler To Lube Oil Cooler	150°-165°F
Alarm Setting	
EWT, Engine Water Temperature (from engine)	200°F
Temperature	
T, Oil to Water	25°F Max.

Raw Water System

Pressure Rise Across Raw Water Pump At 900 RPM (maximum suction-2 psi at pump inlet)	
With Gear Cooler	
8 Cylinder	43 ± 2 psi
12 Cylinder	43 ± 2 psi
16 Cylinder	32 ± 2 psi
20 Cylinder	32 ± 2 psi
Without Gear Cooler	
8 Cylinder	47 ± 2 psi
12 Cylinder	47 ± 2 psi
16 Cylinder	41 ± 2 psi
20 Cylinder	32 ± 2 psi
Design Temperature	
T1, To Fresh Water Cooler (maximum)	85°F
T2-T1, Raw Water Temperature Rise Across Fresh Water Cooler	
8 Cylinder	7°-13°F
12 Cylinder	11°-17°F
16 Cylinder	13°-19°F
20 Cylinder	17°-23°F

Fuel System

G1, at Filter Outlet (to engine)	12 - 25 psi

*“Uniting Innovation, Engineering,
Manufacturing and Distribution”*

NOTES:

MISSION STATEMENT

It is the objective of PowerRail Distribution Inc. to provide Products and Services that meet our exemplary standards of Quality, Service, Delivery and Value....which consistently meets or exceeds our customer's expectations.

Disclaimer

PowerRail Distribution offers a wide range of aftermarket replacement parts for EMD and GETS brand Locomotives.

We **do not** claim to be an authorized distributor for EMD (Electro-Motive Diesels Inc.) or GETS (General Electric Transportation) nor claim to offer any Genuine OEM factory parts.

Please feel free to contact us anytime with any Questions or Comments.
